MODERN AMERICAN DRINKS.

Absinthe.

Absinthe is composed of the tops and leaves of the herb *artemisia absinthium*, or wormwood, which contains a volatile oil, absinthol, and a yellow, crystalline, resinous compound, called absinthin, which is the bitter principle. The alcohol with which this is mixed holds these volatile oils in solution.

The free use of absinthe is injurious. Never serve it in any kind of drink unless called for by the customer.

California Style Absinthe.

A mixing-glass* half full fine ice, one jigger absinthe. Shake until very cold, strain into thin bar-glass, fill with siphon seltzer or carbonic.

* By a mixing-glass is meant a large soda-glass, holding twelve ounces; it is handier and gives better satisfaction than a goblet. A jigger is a measure used for measuring liquors when mixing drinks; it holds two ounces. A pony holds half a jigger.

Dripped Absinthe.

(Use Absinthe Drip-glass.)

Pour one pony of absinthe into the bottom glass, fill the upper (drip) glass full of ice-water. When two-thirds of the water has dripped into the absinthe it is ready to be drunk. A few drops of anisette will improve this drink.

Absinthe, Italian Style.

Put into a thin eight-ounce glass containing a few lumps of clear ice one pony of absinthe, two dashes maraschino, four dashes anisette. Slowly fill the glass with ice-water, stir well with long bar-spoon. Serve.

Absinthe, Swiss Style.

Fill a mixing-glass half-full of fine ice, pour into it one pony of absinthe, one pony of water, one dash of gum-syrup. Shake with shaker until very cold, strain into champagne-tumbler, fill up with siphon seltzer.

Ammonia and Seltzer.

This is a good remedy for the relief of the depression following alcoholic excesses. Dose: Twenty drops of spirit. ammon. aromat. in a medium-sized glass of seltzer or plain water.

Ammonia, Soda, and Seltzer.

Same as ammonia and seltzer, mixing a small bar-spoonful of bicarbonate of soda in the drink before imbibing.

Archbishop.

Dissolve in a mixing-glass one-half tablespoonful fine sugar in a little water, the juice of quarter of a lemon, fill glass half-full fine ice, add one jigger port wine, two dashes Jamaica rum. Shake well. Serve in long thin punch-glass on ice with straws. Trim with fruit in season.

Arrack.

Arrack is made from the juice obtained from the cocoanut-tree. There is another kind made from rice. That which is imported from Japan is considered the best.

Appetizer.

A mixing-glass half-full fine ice; add three dashes absinthe, three dashes pepsin bitters, one jigger French vermouth. Shake well, strain, and serve.

Barley Water.

One tablespoonful pearl barley to two quarts water. Put on fire and boil two minutes; strain

through cheesecloth. This makes an excellent drink if made into lemonade.

Bicarbonate of Soda.

One small bar-spoonful of bicarbonate of soda in a medium-sized glassful of plain water or seltzer (this is an excellent stomach-settler).

Black Stripe.

One teaspoonful molasses, one small lump ice, one jigger Jamaica, Medford, or St. Croix rum. Mix well in small bar-glass. Serve.

Bishop.

A long thin punch-glass half-full fine ice, the juice of quarter of a lemon, the juice of half an orange, one dash Jamaica rum, two jiggers Burgundy, one tablespoonful fine sugar. Mix well, fill the glass with seltzer, ornament with fruit. Serve straws.

Blue Blazer.

One lump of sugar dissolved with a little hot water in a mug; add one jigger of Scotch whiskey. Ignite this mixture. Take another mug and pour from one to the other several times, giving it the appearance of a streak of blue fire. Serve in hot-drink glass. Add a piece twisted lemon-peel and a little grated nutmeg.

Bosom Caresser.

Fill a mixing-glass one-third full of fine ice; add a teaspoonful raspberry syrup, one fresh egg, one jigger brandy; fill with milk, shake well, and strain.

Brandy and Ginger Ale.

Place a lump of ice in a long thin punch-glass, add one jigger brandy and a cold bottle of imported ginger ale.

Brandy Champerelle.

Fill a sherry-glass one-fourth full maraschino, one-fourth full orange curacoa, one-fourth full yellow chartreuse, and one-fourth full brandy. Add

a few drops of Angostura bitters carefully. Be sure to keep the different liqueurs from running into one another.

Sherbets which are of a smooth, fine texture, but only half frozen, are sometimes called sorbets.

Frozen punches are made by adding liquor to the ices either before or after freezing.
